

Prefectural districts : Measurement value of the environmental radioactivity (provisional value)

As of 1 a.m. April 13, 2011

(the 692nd report)

Unit:  $\mu$  Gy/h  $\equiv$   $\mu$  Sv/h (micro gray/hour  $\equiv$  micro sievert/hour)

Date	Measuring time	Ken-poku, Fukushima City	Ken-chu, Koriyama City	Ken-nan, Shirakawa City	Aizu, Aizu Wakamatsu City	Minami Aizu, Minami Aizu Town	Soso, Minami Soma City	Iwaki, Iwaki City Taira	Tamagawa Village Fukushima Airport	Iitate Village	Iwaki City Cyuo Minami Elementary School	Tamura City Hall Parking Lot (Funehiki)	Tamura City Tokiwa	Note
Normal value		0.04	0.04-0.06	0.04-0.05	0.04-0.05	0.02-0.04	0.05	0.05-0.06	-	-	-	-	-	
Wed April 13	13:00	1.79	1.80	0.71	0.20	0.08	0.69	0.36	0.26	5.21	-	0.27	0.24	
Direction and Distance from 1st power plant		North west About 61km	West About 58km	South west About 81km	West About 97km	West south West About 115km	North About 24km	South south west About 43km	West south west About 58km	North west About 40km	South south west About 41km	West About 42km	West About 35km	

※ The amount of radiation per mass stomach examination by X ray is 600 micro sievert, and the highest value shown in Iitate Village in today's measurement is below that of stomach examination by X ray, showing the measurement value which will not give bad affects on health.

※ The research points of the radiation level of Fukushima Prefecture in the Heisei Period:

Ken-poku District • East Wing of the prefectural government in Fukushima City, Ken-chu District • Hayama Park in Koriyama City,  
 Ken-nan District • Shirakawa Branch Office in Shirakawa City, Aizu District • Aizu Tsurugajo Castle in Aizu Wakamatsu City,  
 Minami Aizu District • Maruyama Park in Minami Aizu Town, Soso District • Nishiki Park in Minami Soma City,  
 Iwaki District • Iwaki Branch Office in Iwaki City
